

STEPS FOR INSTALLING CANON IR 2925 DRIVER IN MACBOOK/I-MAC

1. Navigate to the following URL:
https://in.canon/en/support/imageRUNNER%202925_%202925i/model.
2. Select your Mac OS version.
3. Click on the “UFR II/UFR II LT Printer Driver & Utilities for Mac.....” to download the driver.

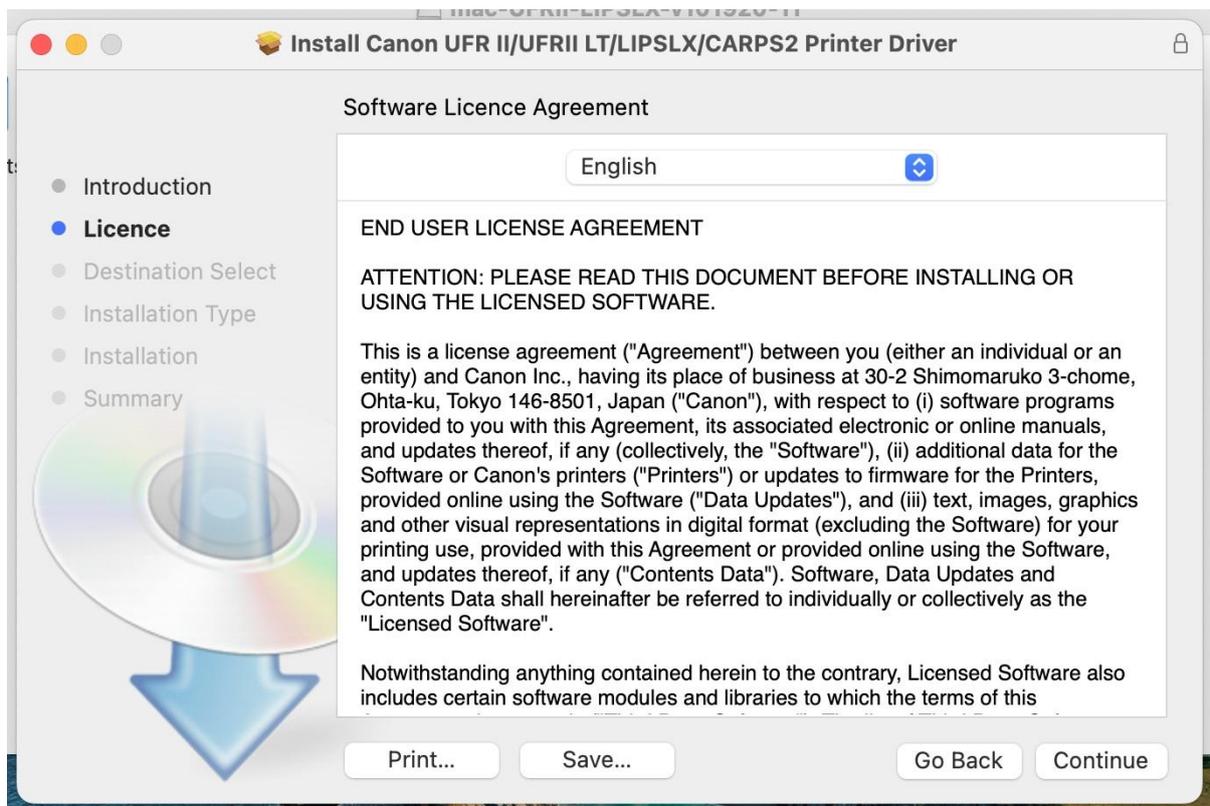

The screenshot shows the Canon support website interface. At the top, there is a navigation bar with links: Products, Where to Buy, Service Network, Extended Warranty, Register your Product, Press Room, Contact, Careers, Warranty, and Support. Below this is a search bar with the text 'Support > Search > imageRUNNER 2925/ 2925i' and a red 'Contact Us' button. A message reads: 'Please select your operating system and language to view and download available drivers, software, and firmware for your product.' Below this are two dropdown menus: 'Compatible Operating System' set to 'macOS 15' and 'Language' set to 'English', with a red 'Search' button. The search results are displayed in a table with three rows:

	Last Updated	Size
PPD files V5.20 for macOS 10.14.6 - macOS 15.1.1	27 Nov 2024	9 MB
Fax Driver & Utilities for Mac V4.15.19 [macOS 10.14.6 - macOS 15.1.1]	26 Nov 2024	22 MB
UFR II/UFR II LT Printer Driver & Utilities for Mac V10.19.20 [macOS 10.14.6 - macOS 15.1.1]		

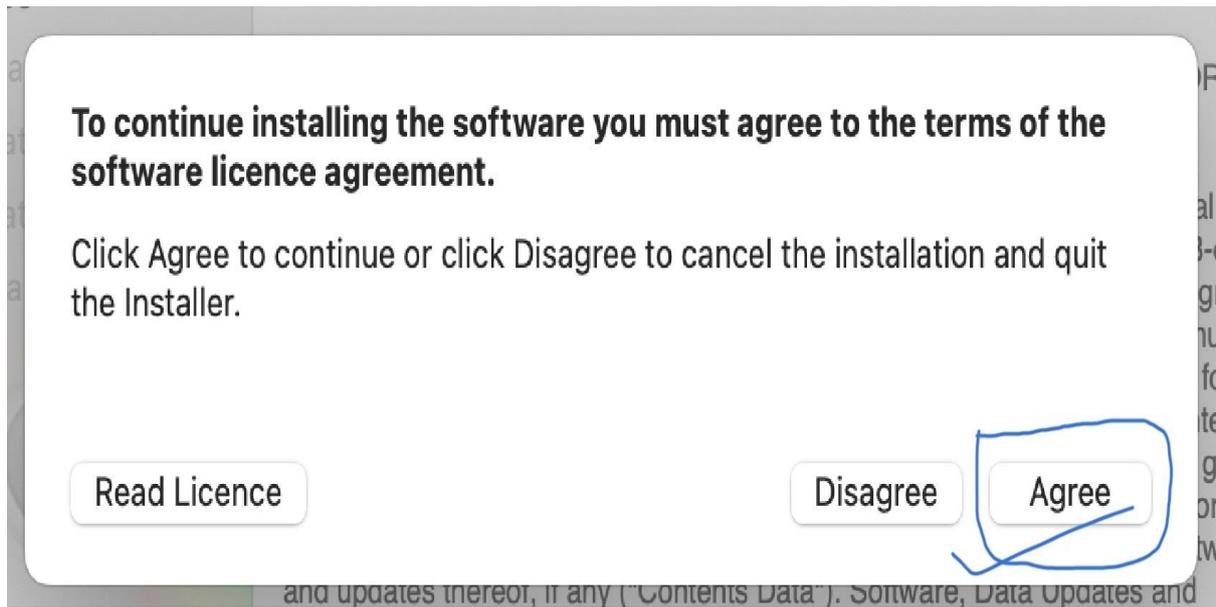

4. Once the download is complete, navigate to the "Downloads" folder and double-click on the downloaded package and Follow the steps for the installation.

After clicking on the "Install" option, the system will prompt you to enter your system password.

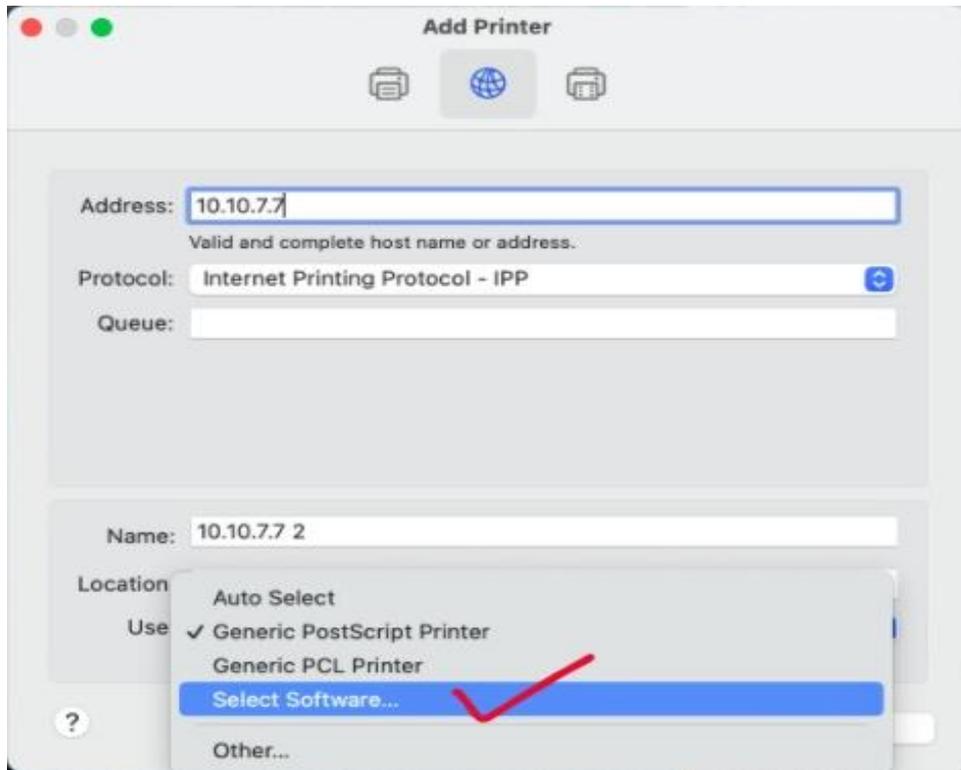

VI

5. Once the installation is complete, navigate to "Settings" and use the search bar to look for "Printers & Scanners." Then, click on "Printer, Scanner & Fax," as depicted in the image.

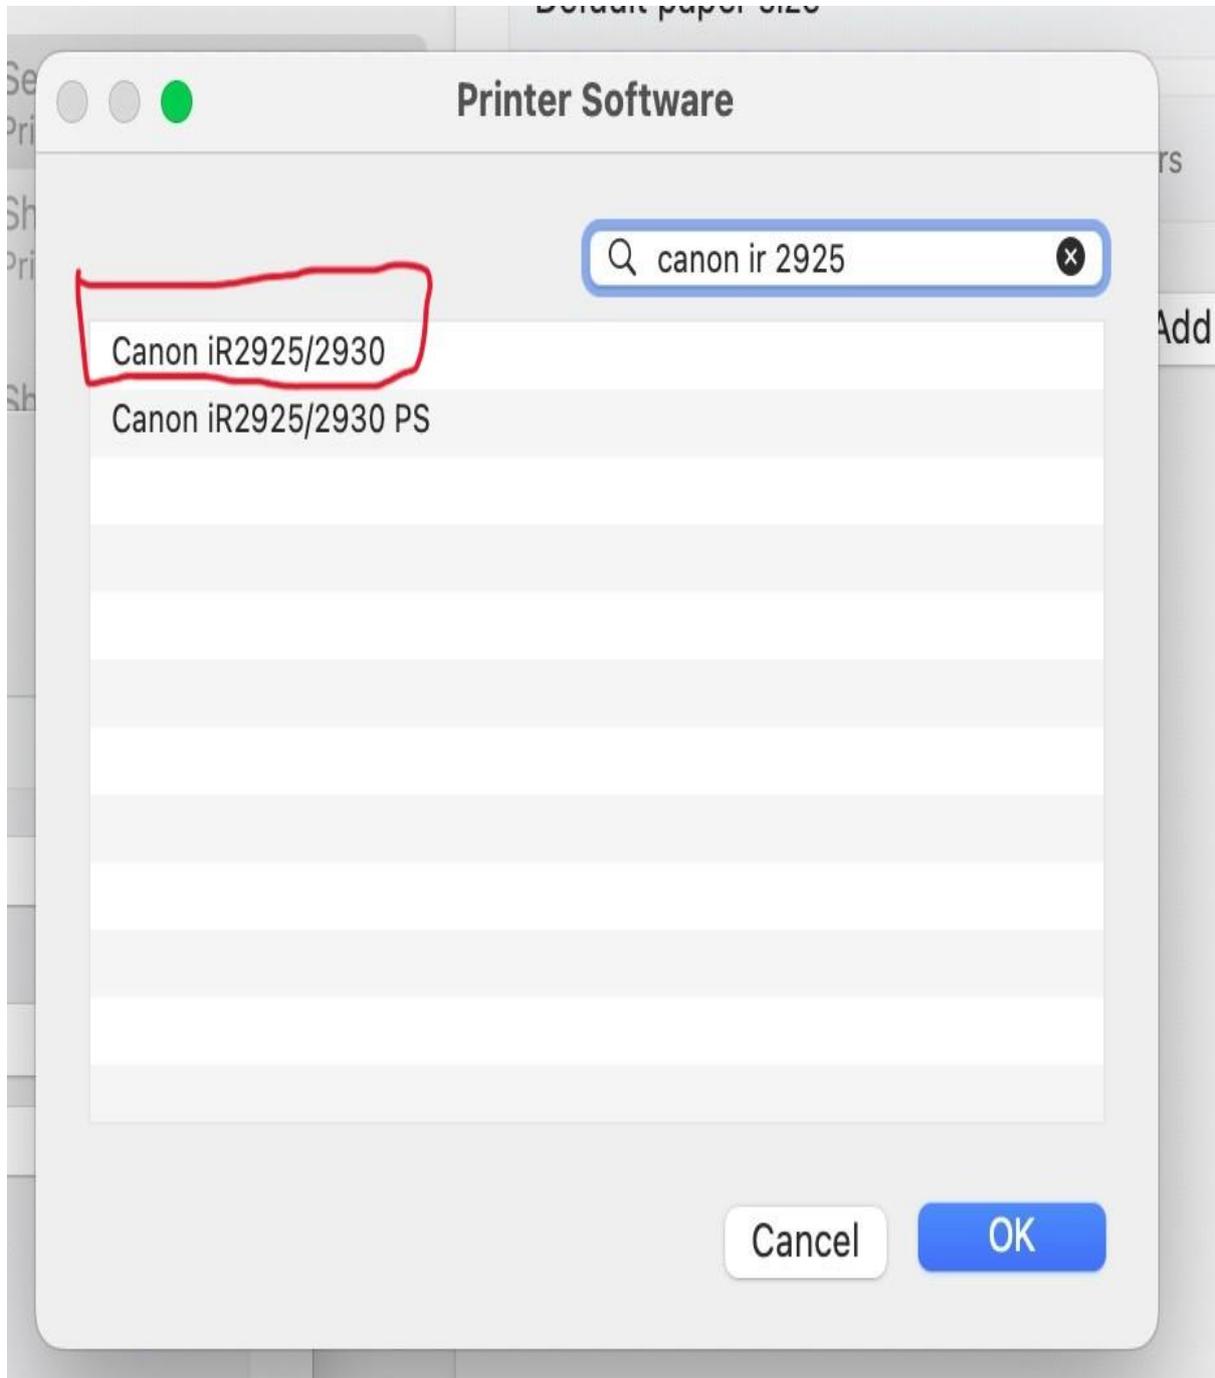

Click on the Internet Symbol as Shown & Fill in the required details.

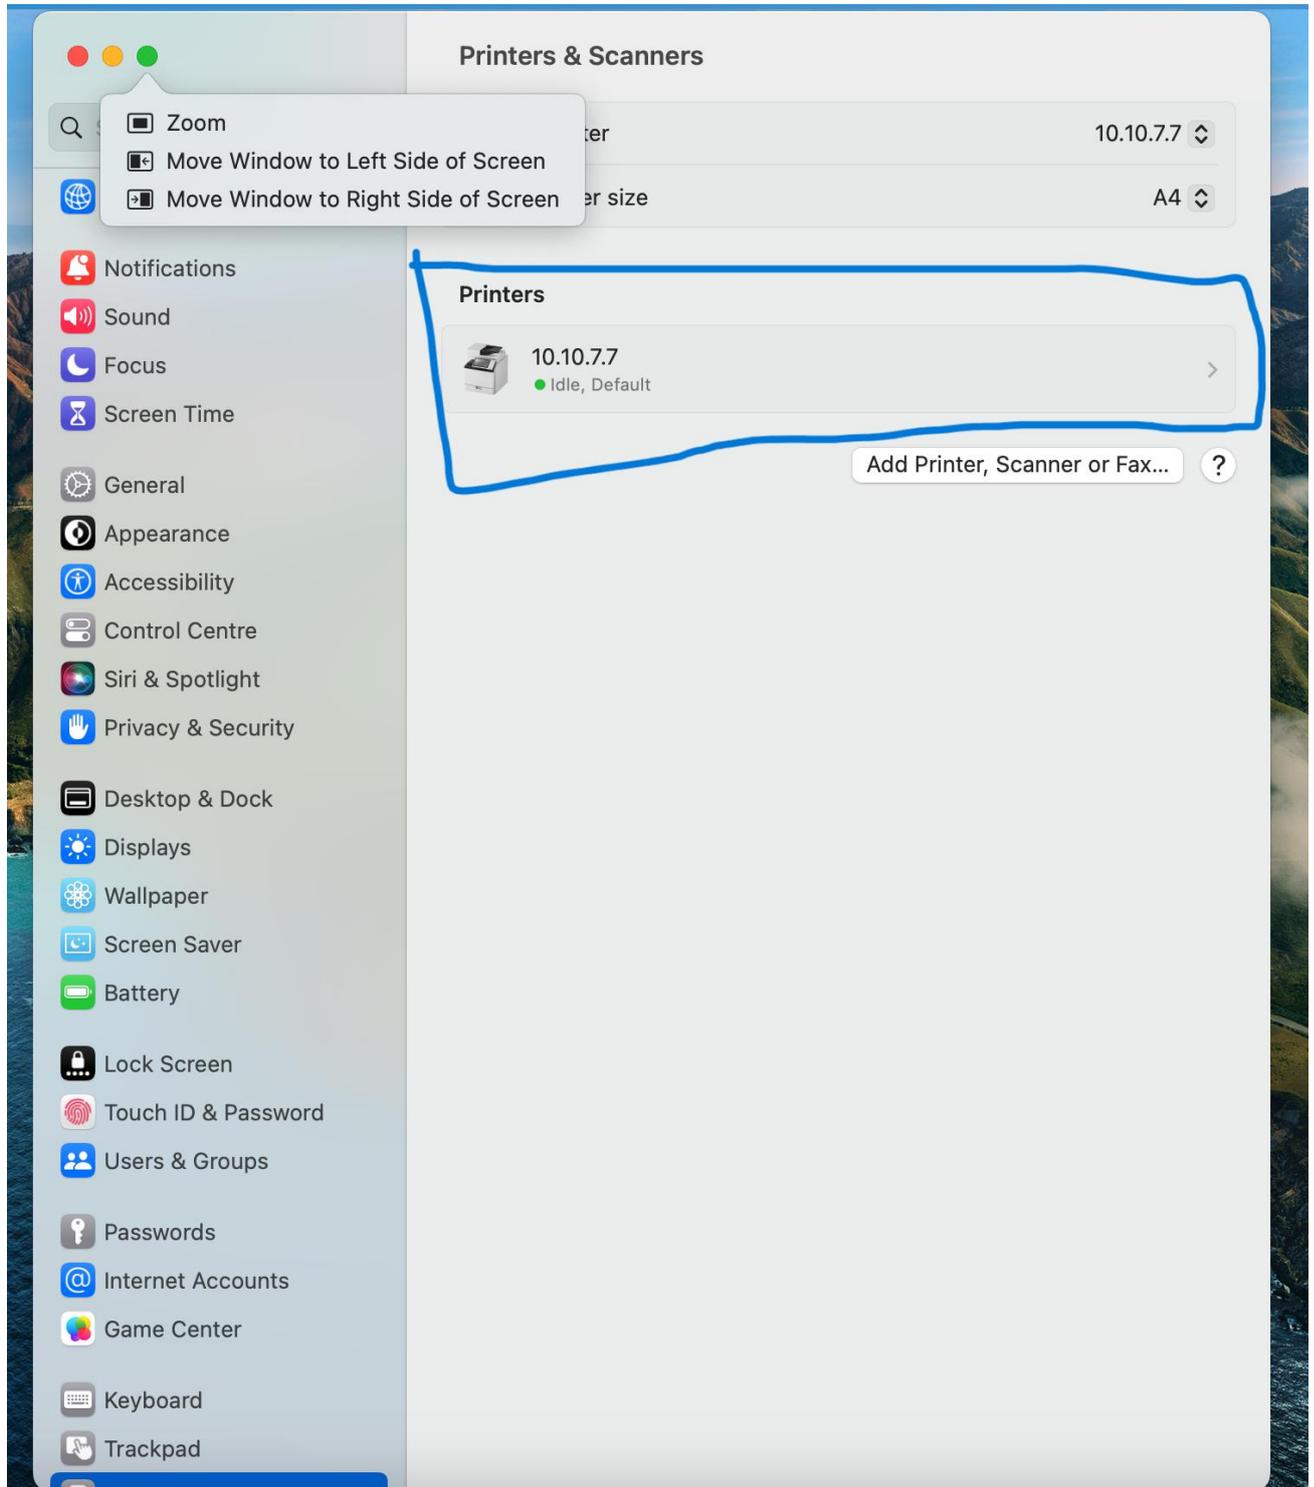

IP Address: 10.10.7.7

Name: 10.10.7.7/Library Printer

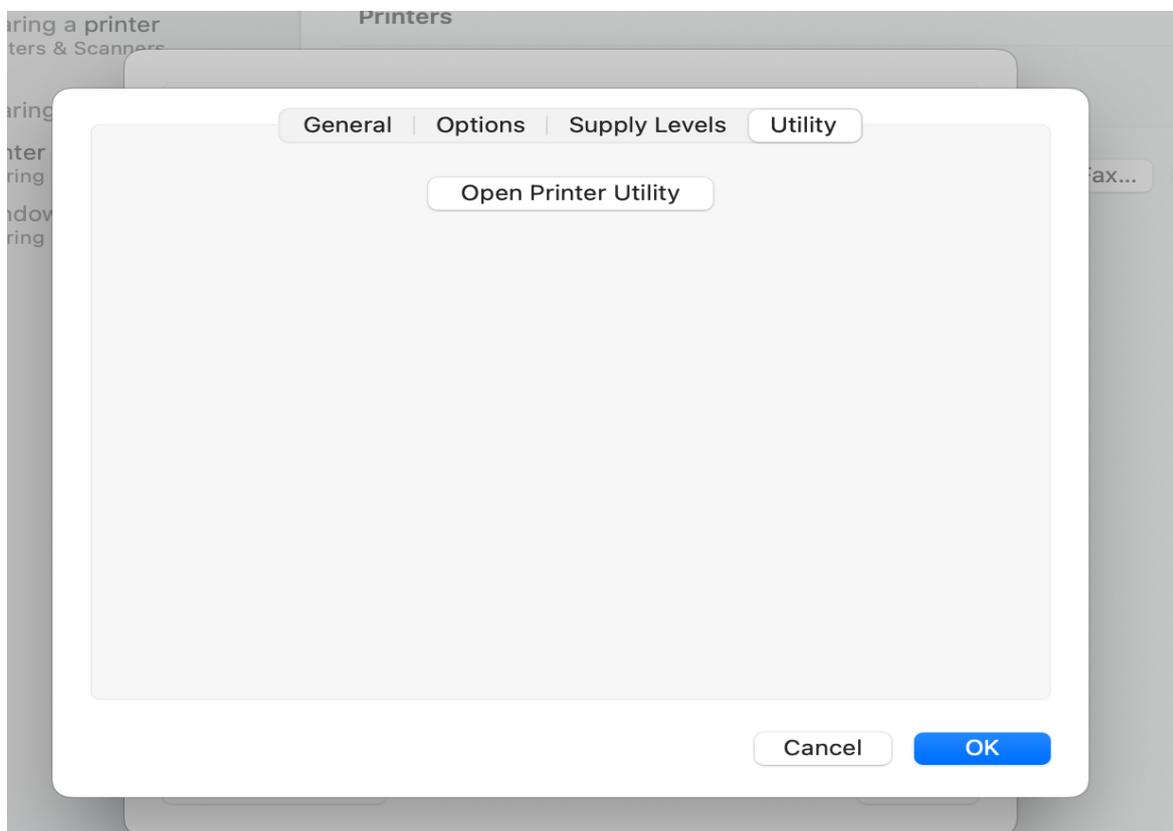

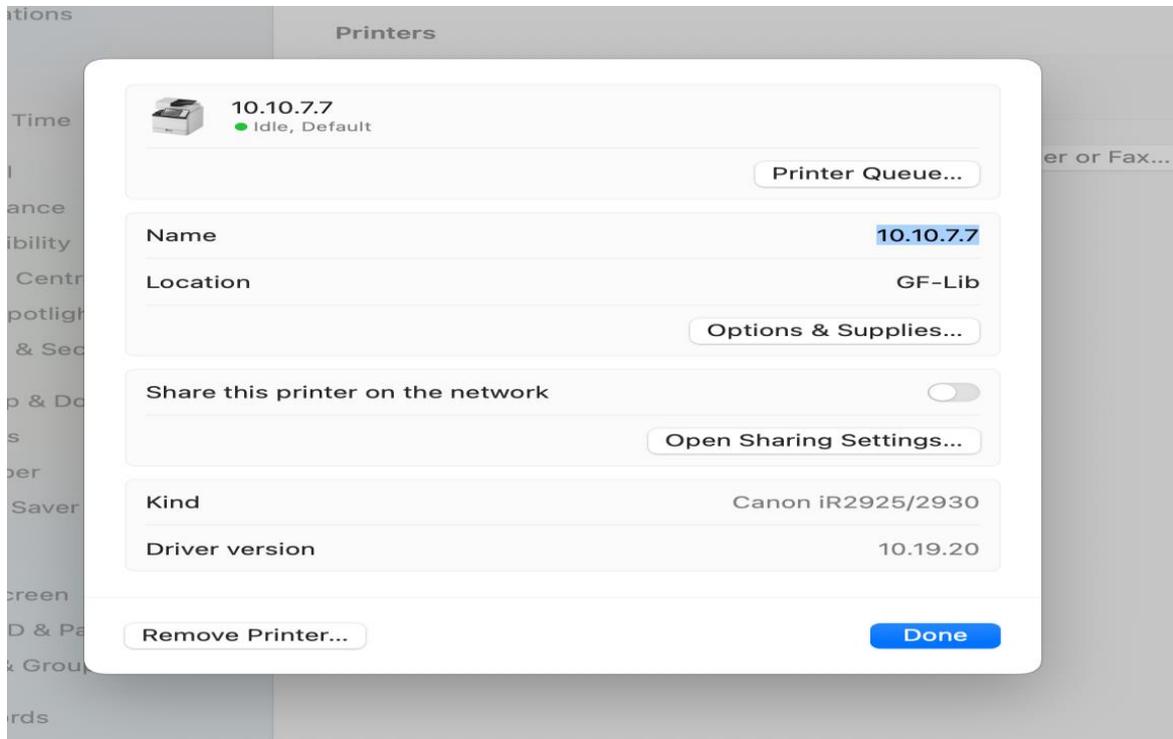

After clicking on "Select Software," type "Canon IR 2925" in the search bar, select the printer from the list as shown in the image, and then click "OK."

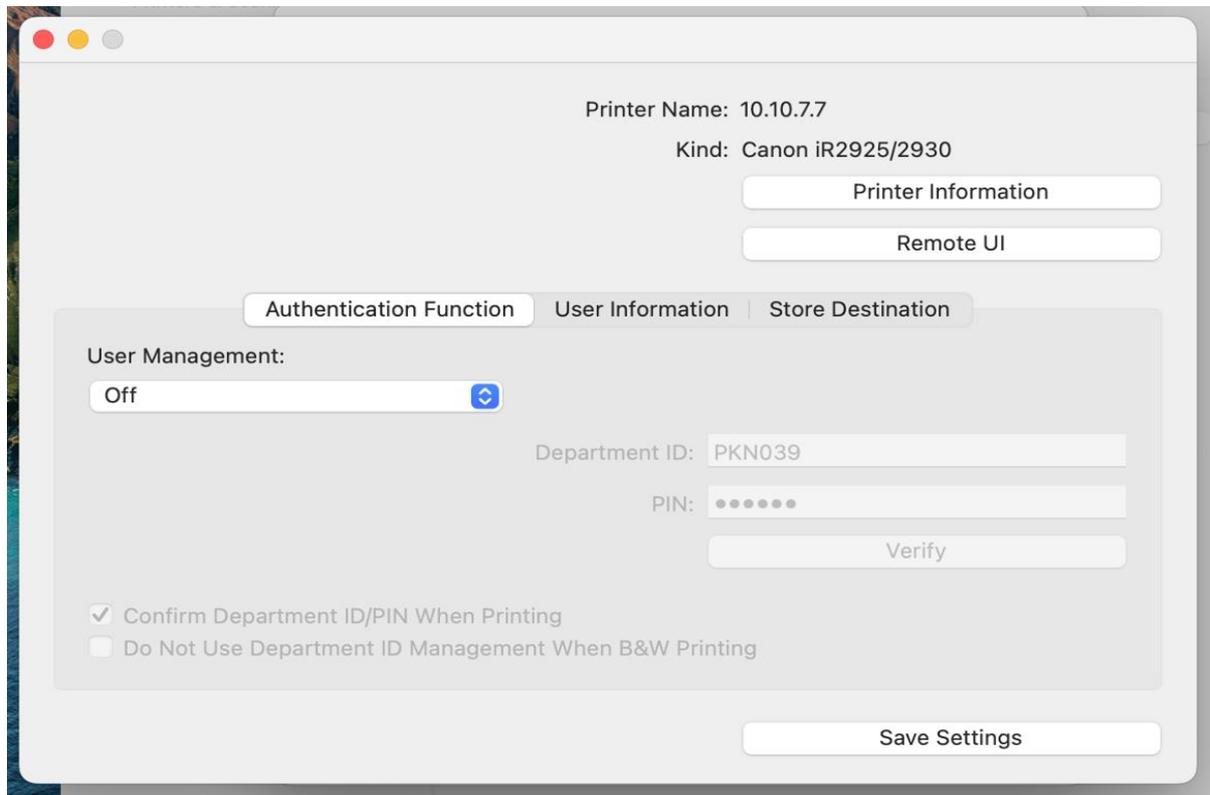

After completing the steps above, go back to “Settings” and search for “Printers & Scanners.” Click on the added printer, as shown in the image.

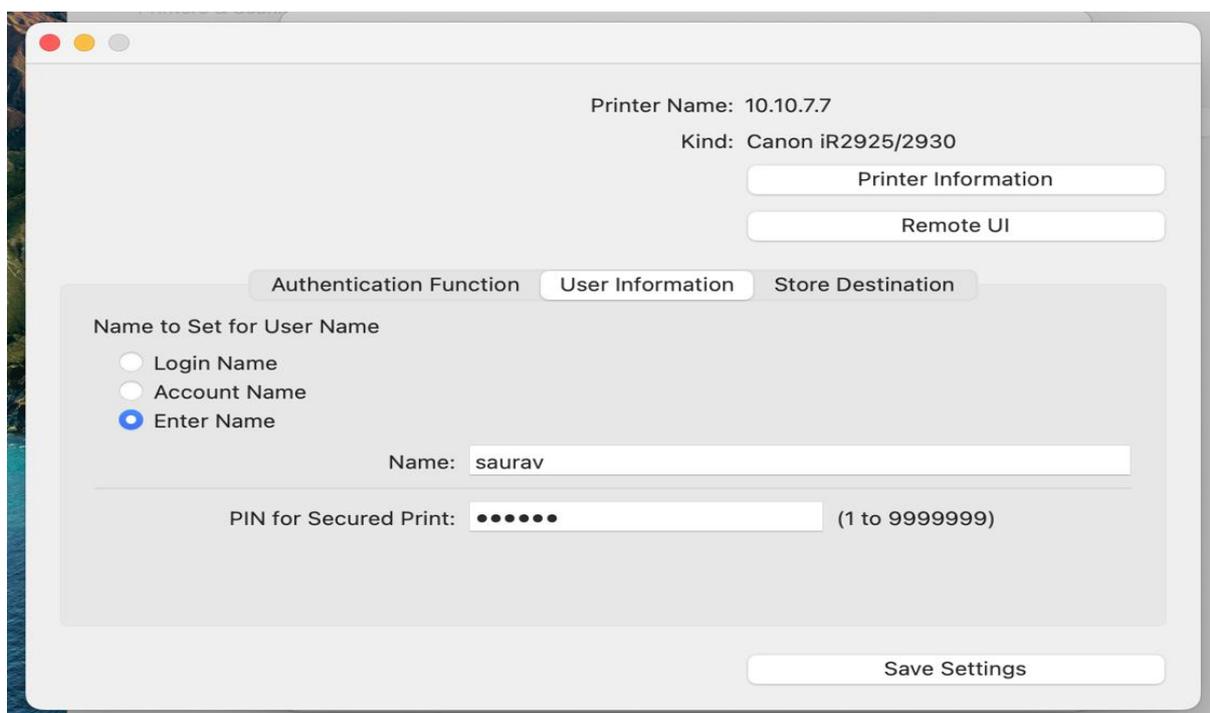

Click on "Options & Supplies". >> Utility>> Click on "open printer utility", as shown in image

In the Authentication Function, select USER MANAGEMENT → off then click on "Save Settings," as shown in the image.

Next, click on the "USER Information" option and select "Enter Dashboard/WIFI/Email Username."

Installation is now complete. Please visit the IT office to request a printer account for the library. Once you have the account, go to the library printer and place your ID card on the RFID card reader. You will be prompted to enter a username and password—use the credentials provided by the IT office. After a successful login, your card will be registered with your account on the printer. You will no longer need to use your credentials; simply use your RFID card to unlock the screen for printing and scanning.
